THE PROBLEM

Oklahoma spends $4B a year on education and ranks dead last

50th

in education quality (WalletHub 2025)

23%

4th graders proficient in reading (47th nationally)

20%

8th graders proficient in reading (48th nationally)

$11,311

per-pupil spending (49th nationally)

Oklahoma by the numbers

Key numbers

700,000 K-12 students

1,734 public schools

82% graduation rate (target was 90%)

State math proficiency: **32%**

State reading proficiency: **26%**

This isn't a funding problem — it's a model problem. $4B/year into the same system won't change outcomes.

OUR RESULTS

The learning science has been known for 40 years... we have made it work

Exceptional Growth (vs. 1x expected)

2.2x
Avg all students growth

3x Lipscomb Academy pilot (Fall-Winter MAP)

4.9x Students 2 years behind

Intervention Pilots (6 public schools)

- **ELA: 2x+**
- **Math: 1.5-2x**

Better than districts achieve on their own

World-Class Academics

1530 SAT
(vs. 1063 national)

94% of students with 4 or 5 on AP

97% love school

- High schoolers voted to keep school open over summer
- **60%+** would rather go to school than go on vacation
- **80%** of students say their Guide is one of the most influential people in their life

100+ life skills projects

- All 3rd graders solve Rubik's cube
- 5th graders gave TED-style talks
- Middle schoolers: 2nd in world, 1st in U.S. in Global AI Debates

PUBLIC SCHOOL PROOF

Live in Houston — America's largest public school AI pilot

HISD Pilot with Superintendent Miles

- **District:** Houston ISD — largest state-managed district in America (~190K students)
- **Campuses:** C. Martinez Elementary + Greg Elementary
- **Students:** 400 students, grades 3-8
- **Model:** Alpha owns >50% of the student day
- **Investment:** $150K/campus + 5 Alpha Guides per site
- **Target:** District-wide rollout → all state-run districts in Texas

Pilot launched Spring 2026. Results will inform expansion decisions for Oklahoma.

Why this matters for Oklahoma

- Proves it works in public schools — not just private
- 400+ students at scale, not a lab experiment
- Same model we're proposing for Oklahoma's CSI schools

Alpha School • Lipscomb Academy • HISD • 6+ private school pilots

THE KEY TO SUCCESS

We have reinvented the school day

Core truths of transformation

- Children should **love school** more than vacation
- Children can **master academics** in 2 hours per day
- The key to your children's happiness is **high standards**

Traditional

6 hours of classroom instruction

Alpha Model

2 hours of academic mastery

+

4 hours of life-skills development

Timeback: the AI and learning science platform delivering academic mastery 10x faster than traditional schooling. 90% mastery floor — no gaps left behind.

AlphaCore: an AI-age life-skills curriculum developing student leadership, teamwork, communication, resilience, and other non-academic capabilities

THE DEAL

We prove it. You scale it. The contract is signed before the pilot starts.

Our commitment

We take the pilot risk. Outcomes-based. Oklahoma pays nothing unless students hit targets.

Your commitment

When we hit the numbers, you roll it out. No second pilot. No committee. Expansion is pre-agreed.

Intervention
(Tier 2 & 3 students)

- 50-60 min daily block
- AI tutoring + motivation system
- Guarantee: 60%+ NWEA MAP Growth
- Pilot: ~87 CSI schools, Fall 2026

TRIGGER: Hit targets → all low-performing schools within 12 months

Mark Rober Science
(All students)

- 1-hour science period
- 15 min Timeback + Mark Rober experiments
- For every student, not just intervention
- Launching Fall 2026

TRIGGER: Hit targets → every public school in Oklahoma

Full School Transformation
(Complete re-invent)

- 2 hrs academics + 4 hrs life skills
- The full Alpha model
- Pilot: 2-5 schools

TRIGGER: Hit targets → aggressive statewide expansion

THE ECONOMICS

Oklahoma spends $11,311 per student and ranks 50th. Alpha costs a fraction.

Program	Per-Student Cost	How It's Paid	Risk to Oklahoma
Intervention (1-hr block)	$2,000/yr	Outcomes-based	**Zero** until proven
Mark Rober Science (1-hr block)	$2,000/yr	Outcomes-based	**Zero** until proven
Full Timeback (school transformation)	~$2,300/yr (20% of per-pupil)	Existing budget	Within current spend

Scale math

~70,000
Bottom-decile students eligible for intervention
~$140M/yr (outcomes-based, paid only on success)

700,000
Total K-12 students eligible for Mark Rober Science
Phased rollout across districts

$4B
Current OK education budget
Full transformation = reallocation, not new money

$2,000 is **18% of current per-pupil spend** — for transformational outcomes on the students who need it most.

THE COMPLETE PLATFORM

What Oklahoma gets on Alpha's full education stack

Alpha Education Stack

- **Timeback®:** AI platform for 10x faster mastery
- **AlphaCore™:** The strongest K-12 life-skills curriculum
- **Guide School:** Talent academy for training guides
- **Incept eduLLM:** Personalized content generation
- **Outcomes Guarantee:** Pay only for results (intervention)
- **Ongoing Management:** Alpha operates and supports continuously

Oklahoma Owned

- **Schools & Access:** Open doors to districts and campuses
- **Per-Pupil Funding:** Existing $11,311/student budget
- **Teachers:** Willing educators trained by Alpha
- **Political Support:** Governor's office clears blockers
- **Adherence:** Schools follow the daily model

✓ No new legislation required for intervention

✓ Aligns with Gov Stitt's school choice agenda (OK ranked 9th in education freedom)

✓ Oklahoma already positioning as national leader in K-12 AI

THE ROADMAP

Gated expansion: prove it, then scale automatically

PHASE 1

PROVE — SY 2026-27

Pilot in CSI / low-performing schools

Alpha takes the risk (outcomes-based)

Trigger: 60%+ NWEA MAP Growth

Third-party verified

PHASE 2

EXPAND — SY 2027-28

All low-performing schools + willing districts

Existing per-pupil funding

Trigger: Results hold across pilot cohort

PHASE 3

TRANSFORM — SY 2028-29+

Full school re-inventions statewide

Per-pupil funding + facility investment

Trigger: Demand from districts + pilot outcomes

1. **The contract is signed before the pilot starts.** Triggers are pre-agreed.
2. **Alpha bears the financial risk in Phase 1.** Oklahoma's only commitment is access.
3. **When triggers are hit, expansion is automatic** — not subject to another approval cycle.

THE ASK

Oklahoma: from 50th to first

What we need from you:

1. Access to CSI / low-performing schools for Fall 2026 pilot
2. A signed expansion commitment: hit triggers → statewide rollout
3. A champion in your office to clear bureaucratic blockers

What you get

- **Zero financial risk** on the pilot
- **Third-party verified results** before any state money moves
- Oklahoma leads the nation in education innovation — that's the headline

AI is transforming every industry. Education is last. The governor who moves first wins.
